

Chengdu

A modern, growing city of 14 million people. Rated as one of China's most livable cities. Home to the Giant Panda and a powerful technology and research development centre.

Consumer electronics

Our focus is the competitive Smart Phone industry. We are investing confidently in cloud services, tablets and wearable devices.

Design culture

Alcatel TCL has made a significant investment in software development in Chengdu. We design in a hands-on culture with a strong focus on product innovation.

Career opportunity

UE has a growing team of young designers. We need leaders and strong thinkers to shape our products and grow the design culture.
